DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II (claims 2-6) in the reply filed on 11 August 2005 is acknowledged.
2. The amendment filed on 11 August 2005 cancelled nonelected claim 1.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate, teach or suggest a chemical mechanical polishing (CMP) method substantially as claimed. For example, the closest prior art of record, Tolles (US 2002/0077034 A1) discloses a CMP method. The method comprises injecting air into a polishing pad (). However, Tolles fails to anticipate, teach or suggest the steps of: during a planarization process, spacing a wafer that is being planarized apart from the polishing pad at a given spacing; and injecting air into the polishing pad while the wafer is rotated. In other words, Tolles does not anticipate, teach or suggest injecting air into the polishing pad during a planarization process. There is no teaching or suggestion within the prior art of record to modify the CMP method of Tolles, such that air is injected into the polishing pad during a planarization process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
